AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph beginning on page 6, line 25 as follows:

25   When the focus buoys are displayed, an alternative consists in ~~shacking~~ shaking

~~again~~ the mouse again to remove the buoys when the user ~~wants~~ no longer wants ~~to~~

~~have~~ the buoys displayed. It is therefore checked whether the mouse is again

~~shaked~~ shaken (step 52) and if so, the buoys are removed from the screen (step 54).

After removing the buoys or if the mouse is not ~~shaked~~ shaken again, the process

30   loops back to the beginning.
